Black Diamond Mastermind

Do you want support from me and my incredible community to install a system that gives you growth, automation and a great team? Allowing you to reduce work hours, increase profits and start living life.

Black Diamond is an Elite Entrepreneur's Mastermind.

We would expect within 12 months someone else will be running your business, giving you freedom of choice over how you spend your time.

But in the next six weeks we will start working on and install 3 key systems into your business.

In the first six weeks:

We will develop your Profit Roadmap so you are laser focused on what to work on to deliver your business the most profit. With the limited time you have, you must know your next right thing. This is the exact system we use in our business to grow each and every quarter

01

We will build your Autopilot Blueprint giving you the step by step plan to go from stuck in your business to only ever working on it.

02

We will give you the Delegation Engine. Your complete guide to getting the boring, low value tasks off your plate so that you can work on the high value tasks that matter.

03

You will have a 90 minute planning session with Stephen to build your first plan and work out your next right thing to get you results straight away.

We will get together each month to mastermind, brainstorm and learn the latest strategies.

Once a quarter we will get together for our intensive where we will build our next 90 day plan and learn from coaches and industry experts.

Each week you will have the opportunity to have your questions answered at our weekly huddle on zoom.

You understand you are getting direct help with Marketing, Sales, Systems, Management and other aspects of running your leveraged business.

You also understand you will never get 'stuck' as you have a community around you.

Investment

Your investment for Black Diamond uses our pay as you grow model.

Your investment is \$295 now then payments of \$295 every week.

This rate will be grandfathered for life and not be subject to future price increases.
